

The needs of wind power companies are the focus of our business - Join the Swedish Wind Energy Association!

The Swedish Wind Energy Association (SWEA) works to increase knowledge about the wind power industry and understanding of the conditions it faces among politicians, opinion formers and decision makers. We work for your company, for Sweden, for the world and for the climate. SWEA shapes opinion, acts as a referral body, monitors energy developments in the rest of the world, provides information on rules and regulations, generates industry agreements and much more.

A broad member base provides an opportunity to influence political issues that are important to the wind power industry. We already accomplish a lot today, but we can do even more – with your help!

Climate change is happening rapidly, and in recent years many initiatives and decisions have been taken aimed at slowing the negative trend. The energy sector can play a very important part in this, and so the Swedish Parliament has set the goal of Sweden having a 100% renewable electricity system by 2040. The transition to renewables offers fantastic opportunities. To meet the target, Swedish wind power must reach production of 90 TWh, which requires more than SEK 200 billion to be invested by 2040.

SWEA's members are companies in the wind power sector. Their common interest is to jointly create a strong organization that works to promote wind power, and to access the information and contacts that membership brings with it.

Over and above a strong organisation supporting the interests of the wind power sector, as a member you also benefit from:

- **Political Influence**
 - Eligibility to join SWEA's Council
 - The opportunity to influence SWEA's statements and referral responses
 - The ability, through SWEA, to influence the conditions affecting the wind power industry in Sweden and the EU
- **Market information, analyses and forecasts**
 - Monthly compilation of [wind power news](#)
 - Quarterly reporting on SWEA's most important activities
 - Quarterly [statistics and forecasts](#)
 - Monitoring policy areas that affect wind power development
 - Presentations from our [seminars](#)
 - Access to the [Secretariat's](#) expertise on sector issues
- **A vital network**
 - Reduced fees for our conferences
 - Spring meeting with seminar mingle and Annual General Meeting
 - [VIND](#) Conference and Fair - The largest in the Nordic region
 - The opportunity to participate in [Almedalen](#)

- [Contact information](#) for other member companies
- Swedish Wind Energy's [Council](#)
- **Exposure of your brand**
 - Reduced stand fees at the [VIND](#) Conference and Fair
 - including space on the exhibitor's platform
 - The opportunity to obtain additional exposure in connection with [VIND](#)
 - [Marketing package](#), advance booking of tickets, lunch with politicians etc.
 - Linked logo and contact information to the company on our [website](#)

Meet our members

We represent about [120 companies](#), including developers, wind power owners, turbine manufacturers law firms, electricity traders, insurance companies, subcontractors, landowners and banks.

ÅF

"As a consulting company, it is essential for us to be a member of SWEA to ensure that we keep up to date on what is happening in the industry and, in particular, take advantage of the excellent opportunities to meet their customers."

Mattias Montelin
 Head of BU Renewable Energy & Energy Strategy
 ÅF Energy Scandinavia

ENERCON

"SWEA is a vital platform for promoting wind power's unique issues. With its professional Secretariat and committed members, it achieves real impact at all levels."

Pamela Lundin
 COO, ENERCON Sweden

OX2

"Sweden has a target of a 100% renewable electricity system, and wind power will be a major component of this. There is a lot that needs to be done and collaboration is crucial. SWEA has an extremely important role in this because it brings the industry together and drives the issues that are important for the development of wind power."

Linda Burenius Magnusson
Head of Public Affairs, OX2 Group

Foyen Law Firm

"At Foyen, we are keen to be involved in the development of renewable energy"

Pia Pehrson,
Lawyer/Partner
Foyen Law Firm

Membership fees?

Our [members](#) are divided into three categories; "Wind Power Owners / Investors & Developers", "Turbine Suppliers" and "Others".

The starting point for service fees for the different member categories is:

- Wind power owners and developers - The company's project portfolio
- Turbine suppliers - The company's installed power over the last two years
- Others - See our fee model.

The minimum annual service fee is SEK 18,550. On joining, there is a one-time fee of SEK 5,000.

Contact details:

If you have any questions about membership, please contact [Tomas Hallberg](#) or call +46 (0)70-164 44 53.

Q&A

- Group Membership

Companies and organizations are eligible for membership of Swedish Wind Energy, but private individuals are not. To join, contact the appropriate person at the Secretariat (see above).

- Main contact person - what does the contact person do?

Our member companies designate a person who is responsible for ongoing contacts with us. The main contact person is who we usually deal with when sending out information, offers and our daily media coverage.

- Constitution

[Here](#) you can see the Association's statutes.

- Association General Meeting and the Board

Every year, SWEA's Secretariat arranges the Spring Meeting with the associated Annual General Meeting for our members. At the AGM, the Chair, Deputy Chair, Secretary, Members of the Board and the Nomination Committee are elected. You can see the membership of our current Board [here](#).

- Advice

The activities of SWEA are not restricted to promoting the interests of wind power with public authorities and agencies, politicians and the media. We are also happy to assist our members with advice. See the schedule of our [expertise](#). You are welcome to contact any of us at the Secretariat.

- Quarterly reports

To enable us to report statistics and forecasts for wind power development in Sweden, members who are developers / wind power owners and turbine suppliers report changes in project portfolios and new turbine orders each quarter.

- Service charge - deductible

The service fee constitutes payment compensation for services provided by the Association, which makes it tax-deductible, unlike membership fees.

- Service fee – AGM resolution, basis and calculation

The calculation of service fees and fee levels are determined by the Annual General Meeting. For developers / wind power owners and turbine suppliers, their second quarterly report is the basis for the subsequent years' service fee.

Join us for *your* opportunity to make a difference.

"The Swedish Wind Energy Association represents the combined voice of the wind power industry. We promote the development of the wind power market in Sweden so that wind power can be developed to its full potential and play its part in achieving a long-term sustainable society."

Charlotte Unger Larson
CEO, SWEA
